**Subject: Rules**

Kathleen,

Reaching out on the rules process. I am sorry that the rules we went through this past session ultimately didn't get adopted by both bodies. I appreciate all the time and effort you put in and appreciate you following up with the temp rules in line with that work. I understand you are in the negotiated rule making process with one round complete and the next meeting in August. I wanted to reach out and see if a more working group type approach could be taken between meetings. I can't say that I have been through the negotiated ruling process myself so don't know what kind of limitations you may have. I worry that a standard meeting every couple months may yield a similar outcome to that we had last session.

If a few stake holders from the counties and defending attorneys etc could sit down between meetings and help work on the proposed language for the next meeting i think that may yield more consensus. I included Seth on this email but wasn't sure who to include in the defending attorney side. This is your rule making process and don't want to dictate in any way but simply offer suggestions.

Thanks again  
Sen. Lakey
